The Management

could easily bring about disastrous results and great disappointment to those who are producing the many fine new seedlings evident in our shows the past season. All seedling judging must be done by especially trained judges so that all seedlings in all shows will be judged in the same and fair manner. Another matter to be handled by every show committee is the importance to be given the handling and exhibiting of seedlings so they can enjoy prominence and distinction to the fullest degree as they are our hope of the future.

I sincerely hope that every member of our organization will give these important matters your full consideration and effective results.

Sincerely,

Ralph D. Phelps
